

REYNALD S. DION, RCE, SO2

84 Cruz Compound Santo Niño Street, Barangay San Jose, Antipolo City
+639774711497 | reynaldsellezadion@gmail.com

PROFESSIONAL SUMMARY

Licensed Civil Engineer and Safety Officer with more than five years of experience in renewable energy, geology and geosciences, and project management. Possessing background in Renewable Energy and Pre-Development Studies, and Customer Service.

WORK EXPERIENCE

SOLAR PHILIPPINES (JULY 8, 2024 – JANUARY 21, 2026)

Project Officer

- Oversee the projects through land acquisition and post-acquisition stages.
- Coordinate with internal teams to resolve deliverables and issues with the lot owners and to secure LGU approvals
- Assist the Permitting Team in preparing documents for the Environmental Compliance Certificate (ECC), Certificates of Non-Tenancy, and Resolutions of Support and No Objection
- Manage land inventory and document project development progress.
- Participate in LGU consultations; prepare weekly reports and memos/transmittals for the management and stakeholders.

Projects Undertaken: Land Acquisition and Permitting

- ✓ Tayabas SPP (560.018MWp/450.000MWac)
- ✓ Cabatang-Tiaong SPP (1000.000 MWp +3000.000 MWh ESS)
- ✓ Calatagan WPP Phase 1 (30MWac)
- ✓ Iba-Palauig SPP Phase 1 (2000.000 MWp + 6000.000 MWh)
- ✓ Iba-Palauig SPP Phase 2 (500.000 MWp + 1500.000 MWh ESS)

GEOINNOVATIVE SPECIALISTS, INC. (SEPTEMBER 18, 2021 – JUNE 16, 2024)

Recent Position: Project Management Supervisor

- Managed and delivered 100+ projects nationwide for local and international clients.
- Generated comprehensive project proposals for clients, including scope of work, methodology, cost estimates, timelines, and technical requirements.
- Coordinated with internal stakeholders for budget allocations, resource deployment, and LGU/private sector permits and requirements.
- Supervised site works, including geotechnical drilling, cone penetrometer testing, geo-resistivity and geodetic surveys, hydrologic/hydraulic analysis, environmental studies, due diligence, bathymetric survey, and in-situ testing.
- Led regular team meetings to ensure timely submission of technical reports.
- Served as a Safety Officer and Project Manager during site visits/operations.
- Prepared technical and administrative documents for government biddings.
- Developed and optimized internal tracking systems for project progress, including workers' performance and site supplies and consumables inventory.

Notable Projects Undertaken: Various Pre-Development Studies

Solar Power Projects

- ✓ 214 MWp and 75 MWp Solar Power Projects
- ✓ 145 MWp Negros Solar Power Project
- ✓ 100 MWp Bolbok Solar Power Project Phase 2
- ✓ 40 MWp San Pablo Solar Power Project
- ✓ 25 MWp Bugallon Solar Power Project
- ✓ 19.6 MWp San Jose Solar Photovoltaic Power Plant
- ✓ 3.1 MWp Linde Ground Mounted Solar PV System

Transmission / Water Resource Projects

- ✓ Feasibility Study for the Underwater NGCP Interconnection from Cebu to Leyte
- ✓ Slope Assessment of Transmission Tower Projects in Zambales, South Cotabato, and Davao Oriental
- ✓ Improvement of Water Supply in Cotabato City

- ✓ Slope Stability of Alignment 4 in the Shotcrete Area in Binga Dam, Itogon, Benguet
- ✓ Feasibility Studies of Various Existing and Additional Deep Wells in Cavite and Metro Manila

Infrastructure Projects (Industrial, Commercial, and Residential)

- ✓ Bathymetric Survey of LNG Multi-Purpose Jetty and Gas Receiving Facility in Batangas City
- ✓ In-situ Testing for Kramer Family's Residence
- ✓ Comprehensive Pre-Development Studies for the Land Development Project in Bulacan and Cagayan
- ✓ Geotechnical Investigation for Provincial Mobile Force Company Building in Mamburao
- ✓ Geotechnical Investigation for the Alignment Road along Zapote River
- ✓ Structural Analysis of Tagaytay Clifton Resort Suites in Alfonso, Cavite
- ✓ Assessment of the Drainage System including Laterals along Sumulong Highway, Marikina City
- ✓ Flood and Slope Studies for the Rehabilitation of San Juan River
- ✓ Pre-development Studies of Slope Protection in Calapan River
- ✓ Geotechnical Investigation for the Additional Building in Victory Liner Bus Depot

CURO TEKNIKA, INC. (JULY 20, 2020 – SEPTEMBER 13, 2021)

Customer Service Representative

- Top-performing agent with a 97% satisfaction rating; handled 5,000+ customer inquiries.
- Provided customer support for MERALCO applications, billing, and outage concerns.
- Logged and escalated customer cases for internal and client resolution.

TRAINING AND CERTIFICATIONS

- Performing PV System Testing and Commissioning
- Energy Efficiency and Conservation Awareness Course: Know and Comply the Requirements of RA 11285
- Response Spectrum Analysis Procedure per NSCP 2015
- Draw Up! Creating A Career in Traffic Management Design
- Project Management 101: Run Projects Effectively
- Lean Six Sigma – Yellow Belt

EDUCATIONAL BACKGROUND

RIZAL TECHNOLOGICAL UNIVERSITY – MANDALUYONG CAMPUS

Bachelor of Science in Civil Engineering (2014-2019)

- Scholar: Supreme Student Council and Rizal Provincial Government
- Leadership Awardee

KEYNOTE SPEAKER

Trailblazer Nexus: Paving the Way for Your Engineering Journey

Polytechnic University of the Philippines – Manila (August 2023)

KEY SKILLS

- Software: AutoCAD, Google Earth, QGIS, MyGoogle Maps, STAAD
- Microsoft Office Applications
- CapCut and Canva
- Affiliate Marketer: Klook, Airalo, Bookaway
- Geotechnical Engineering, Civil Engineering, and Geosciences
- Project Management
- Salesforce
- Government Bidding Process and Application
